

Carpet Bonded Foam

Crosslink foam meets textured carpet to create a product known as carpet bonded foam. Used as a transportable protective flooring, carpet bonded foam is often found in gymnastics, cheerleading, and martial arts facilities.

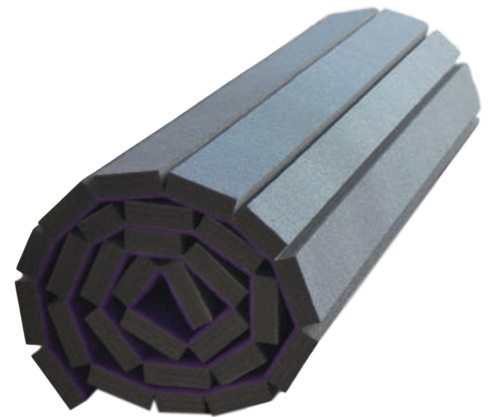

Envirolite offers carpet bonded foam in flat or flexible backing. We have standard Polyethylene, and EVA options. All standard rolls are 42' x 6'. Made-to-order rolls can be cut to your desired width and length. Standard PE rolls are available in 1-3/8" and 2" thicknesses. EVA backed rolls are available in 1-1/2" and 2" thicknesses. We also manufacture vault runways and various sizes of folding and practice mats.

Each order includes matching Velcro strips to secure its placement. The standard velcro rolls are 42' x 4". You will receive one less roll of velcro than the number of carpet bonded foam rolls.

Envirolite provides superb customer service and quick order turnaround time.

Our competitive shipping rates enable our customers to enjoy this exceptional product all over the world.

Our standard colors are Black, Blue, Charcoal, Green, Light Gray, Orange, Pink, Purple, Red, and Teal.
